TOILET SEAT USE & CARE GUIDE

Toilet seats should be cleaned using only mild, soapy water and a soft cloth or sponge. Rinse clean with water and thoroughly dry with a clean cloth.

To avoid damaging the finish, do not allow aerosol products, abrasive chemicals or cosmetics (fingernail polish, aftershave, harsh cleansers, etc.) to come in contact with the toilet seat.

Do not use bleach, pine oils, essential oils, chlorine, acid, disinfectants, products in aerosol cans, hard brushes, abrasive scouring powders or pads. Harsh chemicals can rub away or corrode paint finishes on toilet seats, metal hinges, and dull plastic seats.

If you need any further assistance, please contact Customer Service at 888.722.6488.
