

Frequently Asked Questions: Sawyer Ceiling Fan

Question	Answer
Do I need to register my ceiling fan for warranty?	■ No. The proof of purchase (receipt) should be kept if you need to claim for warranty in the future.
Can my fan be flush mounted?	■ No. This ceiling fan couldn't be flush mounted.
Can this fan be mounted on a sloped, angled, or vaulted ceiling?	■ Yes. You could mount this ceiling fan on a sloped ceiling. The maximum angle allowable is 15°.
What size downrod can I use with this fan?	■ A ¾" downrod without threads on both end should be compatible with this ceiling fan.
Can I have a brighter LED assembly for my light?	■ No. The LED assembly is integrated in the unit, you cannot have a brighter one.
Is the light dimmable?	■ No. The light is non-dimmable
Can I have a wall switch for the fan?	■ No. We do not recommend to use the wall switch for product safety and lifetime use
How to change the color temperatures?	■ Turn light on(color temperature 1), turn light off, and turn light on again(color temperature 2).
How to use the light memory function?	■ Turn light on, choose your favorite color temperature, turn light off, wait for 10-15 seconds, turn light on again, and the color temperature will be your favorite one.
