

PRODUCT SPEC SHEET

LED LIGHT FIXTURES

PRODUCT DESCRIPTION

3 in. Selectable New Construction or Remodel Canless Recessed Integrated LED Kit

Product Overview

The Commercial Electric High-End LED Downlight Kits are ideal for maximizing beam spread and illuminating areas with high ceilings, with options for customization to suit your needs. Each of these LED downlight kits is finished with a brushed nickel trim and silver reflector. Each downlight is also equipped with a selectable color temperature switch on the back that allows you to select from 2700K (Soft White) to 5000K (Daylight), making these high-end LED downlight kits an option for any space. Recessed cans are not necessary for installation as each of these LED downlight kits installs directly into junction box in just minutes. These LED downlight kits are rated to last for up to 50,000 hours of use. Using only 10.3-Watt of energy, these shatter-proof recessed lights product brightness equivalent to a 75-Watt incandescent light bulb. Dimmable down to 5% and rated for use in wet locations. Available in 3 in. and 4 in. models.

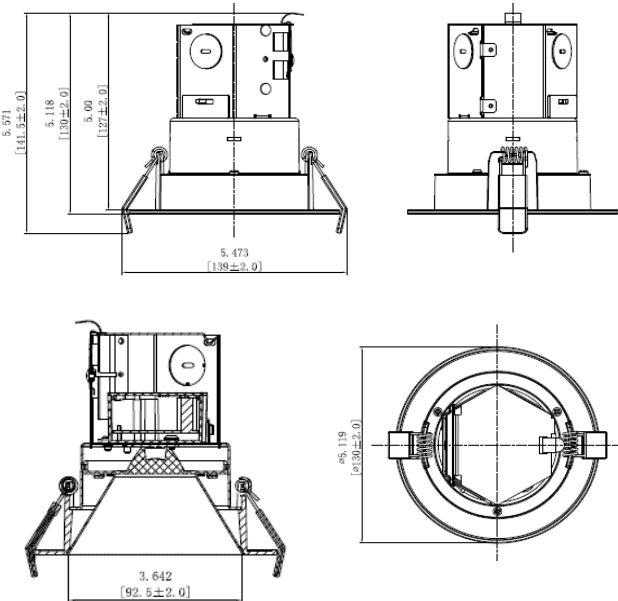

Benefits	Construction	Wattage	Installation	Lumens
•Canless: installs directly into junction box	Metal	10.3	Spring Clips	700
•Finished with a brushed nickel trim and silver reflector.				
•Dimmable: compatible with most LED dimmer switches
