

Declaration of Conformity to Per- and Polyfluoroalkyl Substance as per California PFAS Textile Regulation

We hereby certify that the products listed below manufactured by Research Products Corporation are compliant with the California PFAS regulation and do not contain any regulated PFAS.

[AB 1817](#), officially titled the Safer Clothes and Textiles Act, was signed into law by California Governor Gavin Newsom on September 29, 2022. It is part of the state's broader initiative to eliminate toxic PFAS (Per- and Polyfluoroalkyl Substances) from consumer products.

[AB 1817](#), also known as the California Safer Clothes and Textiles Act, bans the sale of textile articles that contain any regulated PFAS chemicals in California from 1 January 2025. The legislation aims to make clothing and textiles safer by eliminating the use of regulated PFAS chemicals in new textile products manufactured, sold, or distributed in the state by 2027.

(g) "Regulated perfluoroalkyl and polyfluoroalkyl substances or PFAS" means either of the following:

- (1) PFAS that a manufacturer has intentionally added to a product and that have a functional or technical effect in the product, including the PFAS components of intentionally added chemicals and PFAS that are intentional breakdown products of an added chemical that also have a functional or technical effect in the product.
- (2) The presence of PFAS in a product or product component at or above the following thresholds, as measured in total organic fluorine:
 - (A) Commencing January 1, 2025, 100 parts per million.
 - (B) Commencing January 1, 2027, 50 parts per million.

Please note that the information being provided regarding the substances contained in these product(s) is based on information provided by suppliers or producers of the raw materials. We have not conducted any tests to determine the presence of these substances.
