

INSTALLATION INSTRUCTIONS

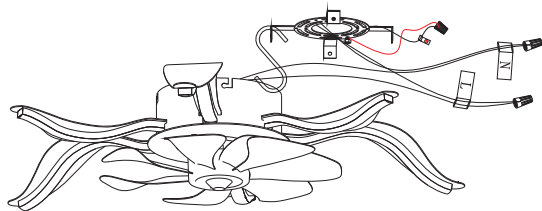

NO.3005

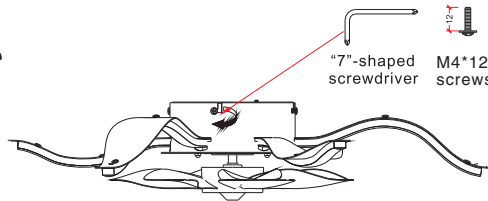

4-1. Connect the numbered wires (1,2,3,4,5,6,7,8) on the controller to the corresponding numbered wires on the lamp body as shown in Figure 4-1. Turn on the power and test the lights. If any light shows inconsistent color, unplug the connector and reinsert it the other way around."

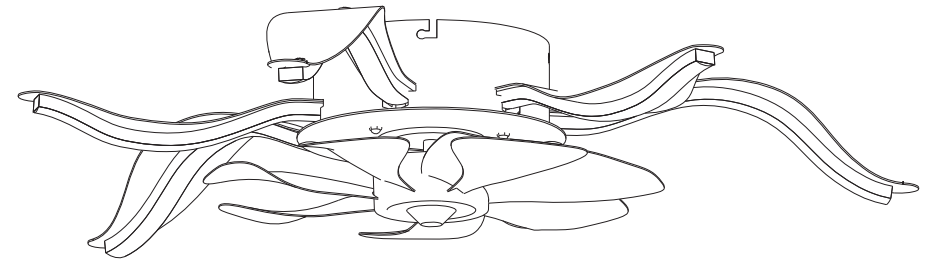

5. Secure the mounting plate to the ceiling with the dedicated screws.

6. Connect the controller to the main power lines (L/N) under power-off conditions.

7. Align the side holes of the luminaire mounting plate with those on the bracket, push it flush against the ceiling, and secure it with M4×L12 screws to complete the installation!

Warning!

1. Installation should be performed by a professional.
2. To prevent electric shock, please turn off the power before installing, repairing, or cleaning the light fixture.
3. This light fixture operates only within 110V-265V.
4. Do not install the light fixture in damp conditions.
5. Keep the light fixture away from acidic and corrosive materials.

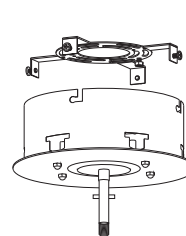

Package Includes

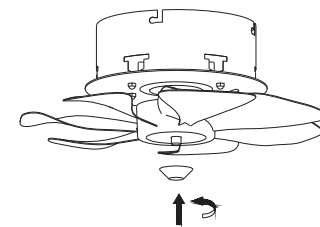

(Screws for fixing the lamp to the ceiling)

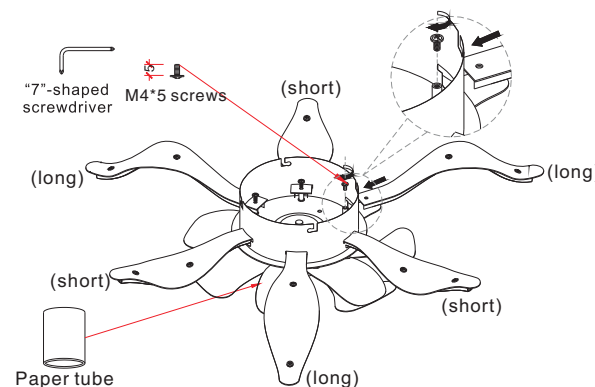

Installation Steps

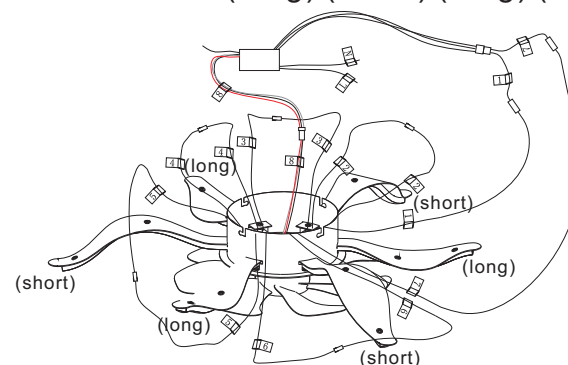

1. Separate the hanging plate from the ceiling-mounted motor shell.

2. Install the fan blades and tighten the blade caps by rotating counterclockwise.

3. After placing the straight tube at the bottom, install the short and long lamp arms alternately as shown in the figure (one long, one short). After adjusting them to be parallel and perpendicular, tighten them with M45 screws and a screwdriver. When fixing the screws, please avoid the wires. (long) (short) (long) (short) (long) (short)

4. Connect the numbered wires (1, 2, 3, 4, 5, 6, 7, 8) on the controller to the corresponding numbered wires on the lamp body as shown in Figure 4-1.
