MOUNT MEASUREMENTS

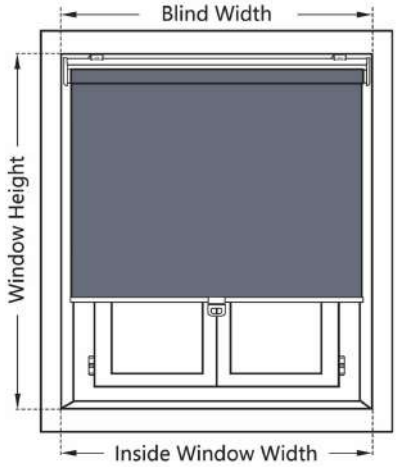

- **INSIDE MOUNT SIZE**

Measure the width and length inside of the window frame. Select the window width and length to make the order.
Window depth need more than 2 Inches, otherwise please choose outside mount.

- **OUTSIDE MOUNT SIZE**

Measure window outer frame width and length.
Add +4 Inches on the window width.
If your window frame is 34" wide, please select 38" wide shade.

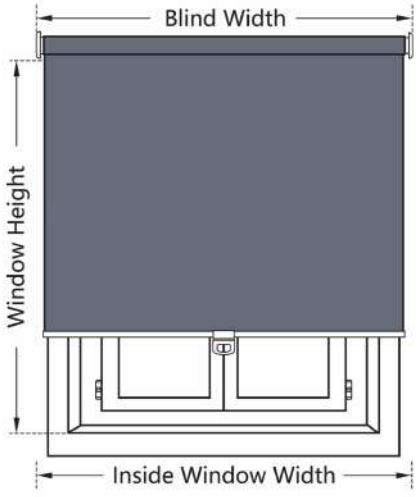

Inside Mount

- Order Width = Exact window width (or 0-1 inch less)
- Shade Height : Works for window less than 72" high
- Fabric Width : 1 inch shorter than the order width

Note: Tiny light gap will exist on each side.
please choose outside mount for 100% blackout!

Outside Mount

- Shade Width = window width + 4" or more
- Shade Height: Works for window less than 72" high
